

# Eco Map at Matsudo Campus

2025

-  Parking area for bicycles
-  No bicycle parking
-  Smoking area
-  Recyclable wastepaper, used paper recovery box
-  Garbage collection Point

## What you can do for the environment at Matsudo Campus

### “Paper(printed one side, used paper)”

After using it, please put it in the “URAGAMI” (裏紙) and used paper recovery box.

### “Energy conservation”

Please turn off the lights when you don't use them.

Set the room temperature of air conditioner properly, 28°C in summer and 19°C in winter.

At Chiba University, the above room temperature is used as a guide in order to practice more effective energy saving.

### “Save Water”

Don't leave the water running.

### “Garbage”

Please reduce and separate them and refrain from using plastic shopping bags.

### “Bicycle and Motorized bicycle”

In Japan every bicycle must be registered to the police.

If you use bicycle or motorized bicycle for school commute you are required to register at the administration office and put on a 2025 Chiba university sticker.

Please park your bicycle in the designated area.

※Don't ride your motorized bicycle inside the campus.

### “Smoking”

Please smoke at the smoking area.

Don't smoke while walking and toss cigarette butts on the ground.

# HOW TO SORT AND DISPOSE OF GARBAGE

※Please write down the name of each laboratory on every garbage bag to specify.

## Burnable Garbage

Dispose of each garbage in a plastic bag after sorting according to each type
